Dear Madeleine

### Big Star Energy Ltd (ASX: BNL) - Request for Trading Halt

Pursuant to ASX Listing Rule 17.1, Big Star Energy Ltd Ltd ACN 009 230 835 (**Company**) requests an immediate trading halt of the Company's securities pending the release of an announcement regarding the acquisition of material mineral leases.

It is expected the trading halt will end on the earlier of the commencement of normal trading on Tuesday, 31 March 2020, or when the announcement on the acquisition of material mineral leases is released to the market.

The Company is not aware of any reason why the trading halt should not be granted.

For any questions, please contact the undersigned on +61 2 8072 1400.

Yours sincerely

Andrew Whitten Company Secretary Big Star Energy Ltd

#### About Big Star:

Big Star Energy Ltd (ASX:BNL) is an independent oil and gas exploration and production company, headquartered in Australia, with operations and exploration in North America. Big Star's strategy is to provide its shareholders with exposure to multiple high-value helium projects in North America. For further information please visit the Company's website at <u>www.bigstarenergy.com.au</u>

#### About Helium:

Helium is a unique industrial gas that exhibits characteristics both of a bulk, commodity gas and of a high value specialty gas and is considered a "high tech" strategic element. Due to its

unique chemical and physical qualities, helium is a vital element in the manufacture of MRIs and semiconductors and is critical for fibre optic cable manufacturing, hard disc manufacture and cooling, space exploration, rocketry, lifting and high-level science. There is no way of manufacturing helium artificially and most of the world's reserves have been derived as a byproduct of the extraction of natural hydrocarbon gas.
